

Taskforce Ukraine

List of goods required by Ukrainian Hospitals, 11.8.2022

Medicine

1. Mesalazin
2. Keppra
3. Levetiracetam
4. Ospolot
5. Sabril
6. Trileptal
7. Nervoheel
8. Newrexan
9. Gamalate
10. Convulex
11. Depakine
12. Diazepam
13. Zarontin
14. Lamictal
15. Lamotrin
16. Finlepsin
17. Benzonal
18. Frisium
19. Clonazepam
20. Rivotril
21. Trikafta
22. Bramitob
23. Zavicefta
24. Ceftazidime
25. Avibactam
26. Meronem
27. Zonegran
28. Zonisamide
29. Topamax,
30. Buccolam,
31. Strattera
32. Petnidan

Equipment

1. Flexible endoscopes (Pentax, Fujinone)
2. Bronchoscope, colonoscope, gastroscope
3. Duodenoscope
4. Karl Storz endoscopic video system
5. Zeiss ophtalmic surgical microscope
6. X-ray film, digital film
7. X-ray protective aprons
8. X-ray protective plates
9. X-ray protective skirts
10. Electrocardiograph
11. Suture material (vicryl, polyester, prolene, V-loc, catgut)
12. Video laryngoscope
13. Stationary apparatus for ultrasound diagnostics
14. Electromyograph
15. Palesthesiometer
16. Spirograph

17. Electrocardiograph
18. Portable ultrasound device with neonatal sensors
19. Newborn Hearing Screening Machine
20. Laparoscopic rack
21. Ultrasound machine with vaginal and convection sensors
22. Mono- and bipolar electrosurgical coagulator
23. Laminar cabinet (width 1000*650 mm, height 1450 or 2150)
24. Children's motomet for mechanotherapy
25. Portable ultrasound machine with software and transducers phased array, linear, convex
26. Holter monitor ECG with software
27. Holter monitor of blood pressure with software
28. Handbarrows
29. Bicycle – veloergometer with software
30. Autoclave with a capacity of 13-20 kW
31. Operating table (MAGUET)
32. Thoracoscopic rack
33. Surgical electric saw
34. Physiodispenser
35. Electric knife
36. Piezosurgery apparatus
37. Stationary table shadowless operating lamp
38. Single lumen subclavian catheter
39. Two-lumen subclavian catheter
40. Line for infusomata
41. Nasogastric probe
42. Intubation tubes
43. Filter for ventilator
44. Urinary catheter Foley
45. Disposable ECG electrodes
46. Syringes
47. Systems for intravenous injections
48. Bandages
49. Gloves, sterile and non-sterile
50. Catheters
51. Scalpels
52. Oxygen masks
53. Ultrasound devices
54. Tonometers
55. Syringe pumps
56. Anesthesia gas machine

Rehabilitation

1. Wheelchairs
2. Verticalizer
3. Treadmill
4. Inhalers – 5 pieces
