

## Needs of Ukrainian Hospitals September 2022

Equipment	Medicine
1 4-channel electrocardiograph	1 Mesalazin
2 Adult intubation blades	2 Keppra
3 Adult patient monitor	3 Levetiracetam
4 Air compressor medical AD3500	4 Ospolot
5 Air-oxygen blender	5 Sabril
6 Ambu bags for newborns are reusable	6 Trileptal
7 Anesthesia gas machine	7 Nervoheel
8 Anesthesia station	8 Newrexan
9 Apparatus (short-latency auditory evoked potentials)	9 Gamalate
10 Aspirator	10 Convulex
11 Audiometer	11 Depakine
12 Autoclave with a capacity of 13-20 kW	12 Diazepam
13 Baby heater - water mattress with electronic temperature control unit	13 Zarontin
14 Baby heater with electronic temperature control unit	14 Lamictal
15 Backup power supply (diesel generator)	15 Lamotrin
16 Bandages	16 Finlepsin
17 Bicycle – veloergometer with software	17 Benzonal
18 biochemical analyzer	18 Frisium
19 Blades for intubation of newborns	19 Clonazepam
20 Blood gas analyzer	20 Rivotril
21 Blood pressure monitor	21 Trikafta
22 Breast pump	22 Bramitob
23 Bronchoscope, colonoscope, gastroscope	23 Zavancefta
24 Capnograph	24 Ceftazidime
25 Catheters	25 Avibactam
26 Cerebral Parainfraction Spectroscopy Monitor (NIRS)	26 Meronem
27 Children's motomet for mechanotherapy	27 Zonegran
28 Children's patient monitor with neonatal sensors	28 Zonisamide
29 Closed resuscitation systems for newborns	29 Topamax,
30 Closed type incubator	30 Buccolam,
31 coagulator	31 Stratterra
32 coagulometer	32 Petnidan
33 Compressor	
34 Compressor station	
35 CPAP with non-invasive ventilation	
36 CPAP with non-invasive ventilation (Infant Flow)	
37 CT	
38 Defibrillator	
39 Digital X-ray machine with a stand for vertical images, ward	
40 Disposable ECG electrodes	
41 Duodenoscope	
42 Electric knife	
43 Electric mattress with heating for the bed	
44 Electrocardiograph	
45 Electromyograph	
46 Ergonomic heaters	
47 Expert class ultrasound device with neonatal, cardiac, linear, vaginal sensors	
48 Fetal monitor	
49 Filter for ventilator	
50 Flexible endoscopes	
51 Flow sensors	
52 Gel baby heater with electronic temperature control unit	
53 Gel operating table heater	
54 Gloves, sterile and non-sterile	
55 Glucometer	
56 Handbarrows	
57 Heated mattress	
58 Heating system (top type)	
59 Helmet for electroencephalography of newborns	
60 Holter monitor ECG with software	
61 Holter monitor of blood pressure with software	
62 Infusomat	
63 Infusomat 2-channel	
64 Intubation tubes	
65 IVL transport	
66 IVL transport	
67 Kangaroo chair	
68 Karl Storz endoscopic video system	
69 Laminar cabinet	
70 Laparoscopic and hysteroscopic equipment	
71 Laparoscopic rack	
72 Laryngoscope with a set of blades 0.1	
73 Line for infusomata	
74 Lower type phototherapy lamp	
75 Moisturizer	
Monitor for amplitude-integrated electro-encephalography (aEEG) with neonatal sensors and	
76 electrodes	
77 Mono- and bipolar electrosurgical coagulator	
78 MRI	
79 Multifunctional monitor	
80 Multifunctional monitor with EEG function	

- 81 Nasal cannulas for CPAP therapy
- 82 Nasal masks for newborns
- 83 Nasogastric probe
- 84 Natus neo Blue blanket phototherapy system (mattress)
- 85 Nebulizer
- 86 Neonatal cuffs
- 87 Neonatal electroencephalograph with sensors
- 88 Neonatal masks and cannulas
- 89 Newborn Hearing Screening Machine
- 90 Newborn resuscitator
- 91 Non-invasive bilirubin meter in newborns
- 92 Non-invasive neonatal ventilators (nCpap)
- 93 Open resuscitation system
  - Open resuscitation system for long-term care of the newborn (servo control, body temperature, local lighting, oxygen supply)
- 94 lighting, oxygen supply)
- 95 Operating obstetric and gynecological instruments
- 96 Operating table (MAGUET)
- 97 Ophthalmic surgical microscope
- 98 Oxygen concentrators for 20 liters
- 99 Oxygen masks
- 100 Oxygen therapy system (humidifier, chamber, air injector, hoses)
- 101 Palethesiometer
- 102 Patient monitor (heart rate, blood pressure, ECG, SpO2)
- 103 Phototherapy lamp
- 104 Phototherapy lamp of the upper type of irradiation
- 105 Physiodispenser
- 106 Piezosurgery apparatus
- 107 Portable device for otoacoustic emission
- 108 Portable multichannel cardiograph with neonatal components
- 109 Portable ultrasound device with neonatal sensors
- 110 Portable ultrasound machine with software and transducers phased array, linear, convex
- 111 Pulse oximeter (Masimo Rad 5, Rad 8)
- 112 Pulse oximetry sensors
- 113 Resistant manipulation
- 114 Respiratory contours
- 115 Resuscitation system (open)
- 116 Resuscitation system (transformer)
- 117 Resuscitation vehicle
- 118 Retinal chamber
- 119 Scalpels
- 120 Sensors for SHOKG and neurosonography of newborns
- 121 Shadeless lamps with batteries
- 122 Single lumen subclavian catheter
- 123 Spirograph
- 124 Stationary apparatus for ultrasound diagnostics
- 125 Stationary table shadowless operating lamp
- 126 Surgical electric saw
- 127 Suture material (vicryl, polyester, prolene, V-loc, catgut)
- 128 Syringe dispenser
- 129 Syringe pumps
- 130 Syringes
- 131 System for high-flow nasal oxygenation (high-flow nasal cannulas, oxygen-air blender, humidifier)
- 132 Systems for intravenous injections
- 133 Table lamps with batteries
- 134 The device of IVL for teenagers and adults of an expert class
- 135 The device of IVL of an expert class (for newborns from 500 g)
- 136 The ophthalmoscope is binocular
- 137 The system of therapeutic hypothermia
- 138 Thoracoscopic rack
- 139 thromboelastograph
- 140 Tonometers
- 141 Transcutaneous bilirubinometer
- 142 Transport incubator (incubator)
- 143 Two-lumen subclavian catheter
- 144 Ultrasound devices
- 145 Ultrasound machine with vaginal and convection sensors
- 146 Ultraviolet cabinets
- 147 Urinary catheter Foley
- 148 Urine analyzer
- 149 Ventilation device for transporting newborns
- 150 Ventilation of high-frequency ventilation
- 151 Ventilator
- 152 Video laryngoscope
- 153 X-ray film, digital film
- 154 X-ray machine
- 155 X-ray protective aprons
- 156 X-ray protective plates
- 157 X-ray protective skirts
